**Pitfalls:**

- Get honest with yourself about time management and expectations; are you humble?
- B.U.G.S. = Busyness + Ugliness + Grumpiness + Selfishness (all can block success)
- FEAR (fear of success and failure) & FINE Attitude (Everything is fine when it's not!).

**Effectively Utilizing Coaching Networks**

- Being willing to be accountable to others regarding your actions and inactivity in a systematic manner; have a teachable spirit
- Make choices relating to implementation, development, and evaluation that keep you focused on meeting both short and long-term objectives
- Work within deadlines, provide details, ask questions, and set goals / next steps
- **To transition effectively:** Pay attention, reduce procrastination, pray, and implement with hope!
